MANUFACTURED BY:

Design pressure		Serial number, model					
Hydrostatic test pressure		Year of manufacture					
Pressure relief valve setting		Tank type					
Max. external pressure		Design code(s), regulation(s)					
Max. product temp.							
Max. loading temp.							
Tank design temp. range							
Total water capacity at 20°C		Pressure vessel code of design					
Nominal capacity		Approving competent authority(ies), number(s)					
Max perm. gross mass		Country of manufacture					
Tare mass		Country of approval					
Permissible max. payload		For alternative arrangements 'AA'					
		CA Transport specification, number					
Tank shell material							
Tank head material							
Tank shell/head thickness							
Corrosion allowance							
Reference mild steel thickness							
Internal lining							
Baffles, partial loading less than 80%							
Temperature channel (not connected)							
Max. working pressure							
Test pressure							
Total area							
Insulation							
Insulation thickness							
Cladding							
Insulation K-value
